

A, B Series

The A, B Series filters are suited for large capacity industrial electric equipments, such as inverters, power purified, to suppress the electromagnetic interference along power lines. The filters have stronger capacity of simple & economical fighting saturation suitable for use in installation general purpose shielded rooms, as well as movable shielder cabinet containing electronic equipments.

*Technical Data

Rated Voltage	200/380VAC 500VDC
Operating Frequency	50/60Hz
Rated Current	20A-60A
Test Voltage	1000VDC(line/line)
Test Voltage	1000VDC(line/ground)
Climatic Category	25/070/21
